Particular attention is paid to the international context of the process of ethnic polarization that culminated in the massive destruction of and especially the obliteration of the Armenian community in The opening chapters of the book examine the relationship between the great power politics of the "eastern question" from the narrower politics of the "Armenian question" from the mid-nineteenth century, and the internal Ottoman questions of reforming the complex social and ethnic order under intense external pressure. Pathophysiology Peripheral arterial disease is considered to be a set of chronic or acute syndromes, generally derived from the presence of occlusive arterial disease, which cause inadequate blood flow to the limbs.
